## Analysis of Feedback

The standard procedure at our institution is feedback. It supports both standard upholding and quality enhancement. Students, Alumnae, Parents and Teachers all provide important feedbacks regarding various aspects which ultimately develop the quality of the institution. Analysis of feedback has been submitted to college authority through IQAC.

### **Analysis of Student Feedback**

Feedback on courses taught and teaching strategies used by instructors is crucial to students, who are among the stakeholders in this process. The present courses and programs chosen by the students were invited to receive input from them for their completion of their education. A questionnaire asking students regarding infrastructure, faculty, library, internal assessment, and institutional environments. A questionnaire concerning the teachers asked about timely completion of the syllabus, subject knowledge, punctuality in engaging the class and preparedness during instruction, teachers' communication skills, and encouragement received from them, and participation in group discussions and quizzes. They said that teachers arrive at the classroom on time and prepared. In class, they promote engagement and conversation. Some of the students demands that the number of computers and references books should be increase in library room. Few students said that they're facing some problems regarding scholarships.

### **Analysis of Alumnae Feedback**

The purpose of gathering alumni feedback was to find out what they thought about how the school operated, which also assist the institution will improve. The considerations that guided the creation of the alumni feedback questionnaire were overall college-organized events, the campus setting, and the facilities available to students. Former students were a valuable and trustworthy source of information about the quality of education received at the college. Alumni also discussed how they felt about the college's evaluation and exam policies. The alumni expressed their satisfaction levels on various activities organized for the overall development of the students.

### **Analysis of Parents Feedback**

Parents are a significant group of stakeholders in higher education institutions. The college's IQAC committee created and approved parental feedback forms. The questions on the parental satisfaction form were varied about the curricular, infrastructure, fee structure, teacher students relations, NTS- students relations, scholarship service etc. Some of the parents suggest that the facility of drinking water should be increase and the cleanliness of the campus should be done in regular basis.

### **Analysis of Teachers Feedback**

One important metric for tracking the gradual process of continuous teaching, learning, and assessment was teacher feedback. The extra details regarding the administrative and teaching facets are included in the feedback that was received. Twenty-one teachers completed the feedback questionnaires that were distributed to the teaching staff offline. Maximum number of teachers thought the syllabus was appropriate for the course, it was need-based, the reference material reflected the course content. The majority of the teachers felt that the quantity and variety of books in the library should be increased. Most of the teachers said that the departmental class rooms and furniture are needed for smooth conduction of classes. Teachers concur that they were free to use innovative teaching methods for both instruction and assessment of their students' learning. Teachers receive enough time to cover all item on the course and run exams efficiently.

Principal  
Harishchandrapur College, Malda

## Action taken report on the feedback analysis

On the basis of feedback of AY 2022-23 from students, parents, alumni and teachers conducted by the college authority and the IQAC of the college, an analysis report was prepared by the IQAC based on which the college authority has taken the following actions mentioned below:

1. An automated library system with KOHA software has been set up.
2. More computers are installed with internet facility in the library for students.
3. Departmental rooms are prepared for easy interaction of stream-based students with the faculty members.
4. In accordance with the syllabus, special lecture series and motivational classes were arranged to encourage the students.
5. Regular maintenance is done to ensure cleanliness in the drinking water arena, teachers' rooms, libraries and departments, as well as the hallways and students' common room.
6. Scholarship-related issues were dealt with.
7. Furniture in Departments and Classrooms were repaired and installed. New furniture were installed in departmental rooms.
8. A sick room with a wheelchair facility was arranged.
9. The code of conduct for students, teaching and non-teaching staff was published and displayed on the website.
